Supplies to consider for extra fun:

Gelly Roll pens, color pencils, gold markers, acrylic paint, stamps and ink, are fun additions but not necessary. Available at your local craft store, art store or Amazon.

For audio recordings listening:

- Headphones or a good pair of earbuds would be the next best choice. These make a *profound difference* in your experience as you can hear the nuances of the vocal and music that can be missed with speakers.

- Internet sites to download images: There are many sites but here are two:

- Pinterest: If you don't have access to a lot of images you can build image boards on Pinterest to tell the story of your archetypes. Simply create a board for your mythic character as a reflective creative source. Find images on Pinterest to tell your story of that character and save them to your board.
